

The mind is not a vessel to be filled, but a fire to be kindled.

~Plutarch

Mountain Scholars Latin Heritage School, a multi-church academic ministry committed to providing a classical and Christian education to students in South Siskiyou county, is reaching out for financial assistance from individuals and organizations in our community who share our vision to provide education that is founded in scholastic excellence and virtue.

The rapid growth of the school over the last six years (from nine to ninety students grades K-12) demonstrates the profound need for families to have an educational option that is academically solid, morally whole, and respects the authority of parents.

The biggest challenge that families face when choosing Christian education is the increased financial burden of tuition. Families in our community need financial assistance to give their children the gift of a beautiful education marked by timeless wisdom, values, and the academic excellence that Mountain Scholars provides.

Your donations can make a significant difference in the lives of our students. Our prayerful goal this year is to award up to 20% of our projected tuition, which means raising approximately \$50,000 for these scholarships.

Your contributions will go *directly* towards need-based scholarships and will help ensure that finances are not the obstacle that prevents students from receiving an excellent education.

Donations can be given through our website or by sending a check. If you would like to make recurring donations by check, we are happy to send you mailing labels upon request. Additionally, we offer sponsorship opportunities for businesses and organizations that align with our mission.
